

PUKY NEXT

The next generation
of balance bikes.

PUKY

Extra loong

driving fun!

Thanks to the **innovative adjustment options** the balance bike is a companion from the first attempts at riding to rapid descents.

One

for all!

PUKY NEXT adapts to every growth step and guarantees riding pleasure for young and old adventurers alike.

PUKY

Changing tires

like the big guys.

Thanks to the unique use of **FlipChip technology** it is possible to use two different wheel sizes (12" & 14").

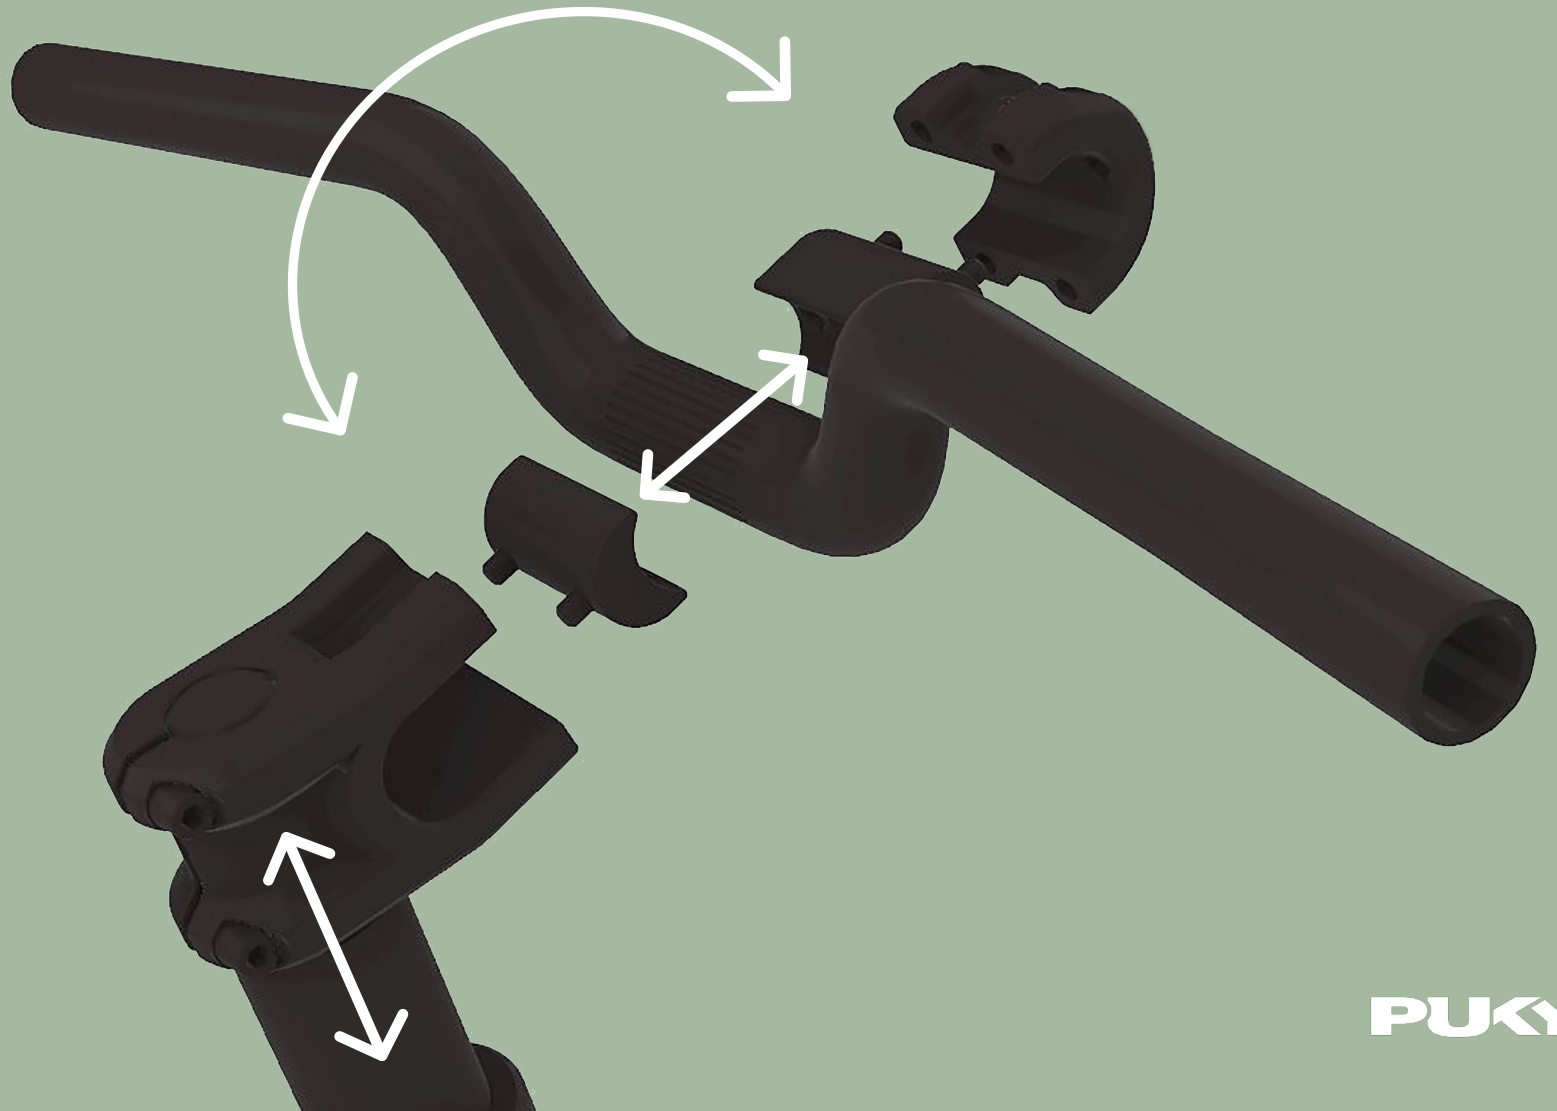

PUKY

Always

suitable!

The patented ahead stem system allows the handlebars to be adjusted in all directions. Whether an upright riding position for beginners or a sporty, dynamic riding position for experienced children.

PUKY

Feet

up!

No problem, thanks to the non-slip stepping board.

PUKY

Full

control!

Wider, but not too wide! A handlebar width that **ensures more control** and smoother steering. Learning to brake correctly is easy with the **color-contrasting brake lever**.

Wide
riser bar

Colored
brake lever

PUKY

Braking like

the older siblings!

PUKY NEXT is currently the **only nylon balance bike with a V-brake** on the market – and it works with both 12" and 14" wheelsets!

PUKY

All the facts at a glance.

- + Optimized ergonomics
- + maximum adjustability
- + less weight
- + improved driving & rollover characteristics
- + longer service life
- + increased safety
- + modern dynamic design with the signature PUKY "swing"
