

toraman bikes SADE — Stahlrahmen und Fahrräder Handmade in Berlin

Warum heisst unser Single Speed SADE?

Erstaunlicherweise kann man das türkische Wort SADE mit vielen Worten übersetzen... Für uns steht es eindeutig für: Pur.

Entdecke das Fahren in seiner reinsten Form. Ein Fahrrad, das so natürlich ist wie die offene Straße, gebaut für diejenigen, die die Schönheit des Originals schätzen. Es ist elementar - reduziert auf das Wesentliche, wo jeder Pedaltritt spürbar ist. Puristisch im Design und kraftvoll in der Leistung. Das ist Freiheit, schlicht und einfach.

Wir kommen aus Berlin-Neukölln – hier geboren und aufgewachsen. Unsere Liebe gilt diesem Bezirk und allem, was ihm guttut. Wir glauben: Ein schnelles, hübsches und verlässliches Fortbewegungsmittel ist eine Bereicherung für alle. Genau deshalb bauen wir es – direkt hier, vor Ort. Unser Anspruch ist einfach: ein Fahrrad, das nicht nur großartig aussieht, sondern auch in Sachen Qualität und Transparenz überzeugt. Du sollst genau wissen, was Du fährst. Deshalb legen wir offen, woher jedes Teil stammt und warum wir es verwenden – ohne Kompromisse.

Geprüft gemäß internationalen Standards

Um die Sicherheit und Langlebigkeit zu garantieren, haben wir unsere Rahmen und Gabeln von der EFBE Prüftechnik in Waltrop nach internationalen Sicherheitsstandards testen und zertifizieren lassen. Detaillierte Informationen zu den Tests findest du auf unserer Internetseite.

Versand per BikeBox - die Mehrweg-Verpackung

Jedes Fahrrad wird in Neukölln mit Liebe zum Detail von Hand montiert und an Dich geliefert. Der Versand erfolgt umweltfreundlich mit circular logistics: Dein Bike kommt ohne unnötigen Verpackungsmüll, geschützt und sicher bei Dir an. Die wiederverwendbare BikeBox wird nach der Lieferung abgeholt – für einen rundum nachhaltigen Versand.

Tretlagergehäuse	Stahl, BSA, Gehäusebreite 73mm, Gehäuseaußendurchmesser 38mm, Made in Germany by Koehn
Innenlager	Hollowtech II, BSA Gewinde (BC 1,37x24tpi), Breite 73mm, zweifach gedichtete Schrägkugellager, Kugellager aus Edelstahl, spezielle Staubschutzabdeckung, Made in Germany by Acros
Antrieb	Single Speed: Riemenantrieb Carbon Drive™ CenterTrack 115T, vorn 55 Zähne, hinten 20 Zähne, CDS System Zähne und Riemenrücken Polyurethan, Aramidfaser-Zugstrang, Riemen Made in USA, Zahnkränze Made in Asia by Gates
Kurbelsatz	Gates S550 CDX, geschmiedetes Aluminium, Kurbelarmlänge 170mm, Made in Asia
Griffe	Ergon GP1 BioKork, Designed and Engineered in Germany, Compound Made in Germany, Griffe Made in Taiwan by Ergon

Bremsen	Magura MT 4 hydraulische Scheibenbremsen + Storm HC Bremsscheibe, Material Griff Carbotechnology®, Material Hebel Aluminium, Bremsmedium Mineralöl, Aluminium-Bremssattel, Designed and Engineered in Bad Urach, Germany, Made in Taiwan by Magura
Lauftrad hinten	Ø 622 x 19 – 28“ Hohlkammerfelge Aluminium, 36 Loch, Made in France by Mach1, Speichen und Nippel, Made in Europe and Asia by Sapim, Nabe Shimano Freehub FH-M525A Disc 6-Loch, Einbaubreite 135mm, für Scheibenbremsen, Made in Malaysia by Shimano Nabe-Spacer, Aluminium, Universal Spacer Set für Single Speed, Made in Asia by Pinion, Lauftradfertigung Handmade in Germany by Roland Werk
Lauftrad vorne	Ø 622 x 19 – 28“ Hohlkammerfelge Aluminium, 36 Loch, Made in France by Mach1 Speichen und Nippel, Made in Europe and Asia by Sapim, Nabe Shimano Deore XT HB-M756 6-Loch, Vollachse mit Einbaubreite 100mm für Scheibenbremse, Made in Malaysia by Shimano Lauftradfertigung Handmade in Germany by Roland Werk
Reifen	ETRTO 35-622 (28", 700x35C), Black/Black, Reflexstreifen, Black Chili Compound, PolyX Breaker, Handmade in Germany by Continental
Schlauch	AV17, Ventilart AV, Made in Indonesia by Schwalbe
Felgenband	20-622, High-Pressure-Felgenband , Made in Indonesia by Schwalbe
Sattel	Rahmenfarbe silber: SR10, Stahlschiene, Oberfläche aus Microfieber, Sitzschale aus Nylon Composite, Polsterung Standard Foam, Made in Taiwan by Ergon Rahmenfarbe schwarz: Modell Cambium C17, Stahlschiene mit schwarzer Pulverbeschichtung, mit Aluminium-Nieten, Oberfläche aus vulkanisiertem natürlichen Naturkautschuk, Nasensteg und Sattelplatte aus verstärktes Fiberglas Nylon, wasserdicht, Handmade in Italy by Brooks
Pedale	Solide Vollachse aus Edelstahl, Rahmen ist wasserfest versiegeltes, gebeiztes Multiplex Holz, Tragschalen bestehen aus glasfaserverstärktem Kunststoff in einer Wabenstruktur, 15 Millimeter schlank, Griptape, Längsverstellbarkeit der Pedalachse um 5 Millimeter, keine Pins oder Metalle auf der Oberfläche, Made in Germany by MOTO Pedals
Steuersatz	Semi-Integrated Steuersatz mit Cartridge Lagern ausgelegt für 1-1/8" Gabeln, S.H.I.S.: ZS44/28.6 ZS44/30, Made in Germany by Acros
Lenker-Vorbau-Einheit	T-Stealth, AL6061, Ein-Schrauben-Klemmung, Vorbau-Länge 90mm, Neigungswinkel +/- 7°, Griffwinkel 9°, Höhe 4mm, Breite 560mm, Made in Taiwan by Satori
Sattelstütze	Camber, Aluminium AL6066, Patent-Sattelstütze, Außen-Ø 27,2mm, Made in Taiwan by Satori
Sattelstütze-klemme	Aluminium, Made in Taiwan by Satori
Spacer	Aluminium, 5mm, 11/8", hollow cut, Made in Taiwan by Acros
Schmierung	bikefett, senkt Reibung & Verschleiß, schützt vor Korrosion, weist Wasser und Schmutz ab, 100 % biologisch abbaubar, Made in Germany by antidot

 **toraman bikes SADE** — Steel Frames and Bicycles Handmade in Berlin

So why we call our single speed bike SADE?

Astonishingly you can translate the Turkish word SADE into many words...

For us, it clearly stands for: Pure.

Discover the ride in its purest form. A bike that's as natural as the open road, built for those who appreciate the beauty of the original. It's elementary - stripped down to the essentials, where every pedal stroke is felt. Modest in design, yet powerful in performance. Humble in appearance, but never lacking in spirit. This is freedom, plain and simple.

We are from Berlin-Neukölln - we were born and raised here. We love this neighbourhood and everything that is good for it. We believe everyone would benefit from a fast, attractive and reliable transport system that everyone can use. That's why we're building it - right here, locally. Our aim is simple: a bike that not only looks good, but also delivers quality and transparency. You should know exactly what you are cycling. That's why we tell you where every part comes from and why we use it - without compromise.

Tested in Accordance with International Standards

To guarantee safety and durability, we have had our frames and forks tested and certified by EFBE Prüftechnik in Waltrop in accordance with international safety standards. You can find detailed information about the tests on our website.

Shipping via BikeBox - The Reusable Solution

Every bike is assembled by hand in Neukölln with attention to detail and delivered to you. To help protect the environment and conserve resources, we use reusable boxes to ship your orders from our online store provided by circular logistics. Please note that you are required to return the reusable BikeBox in accordance with local regulations. This is to encourage reuse and reduce waste.
