Feel the difference before you decide. Test ride an Ampler across Europe and meet your match.

## Ampler E-Bikes

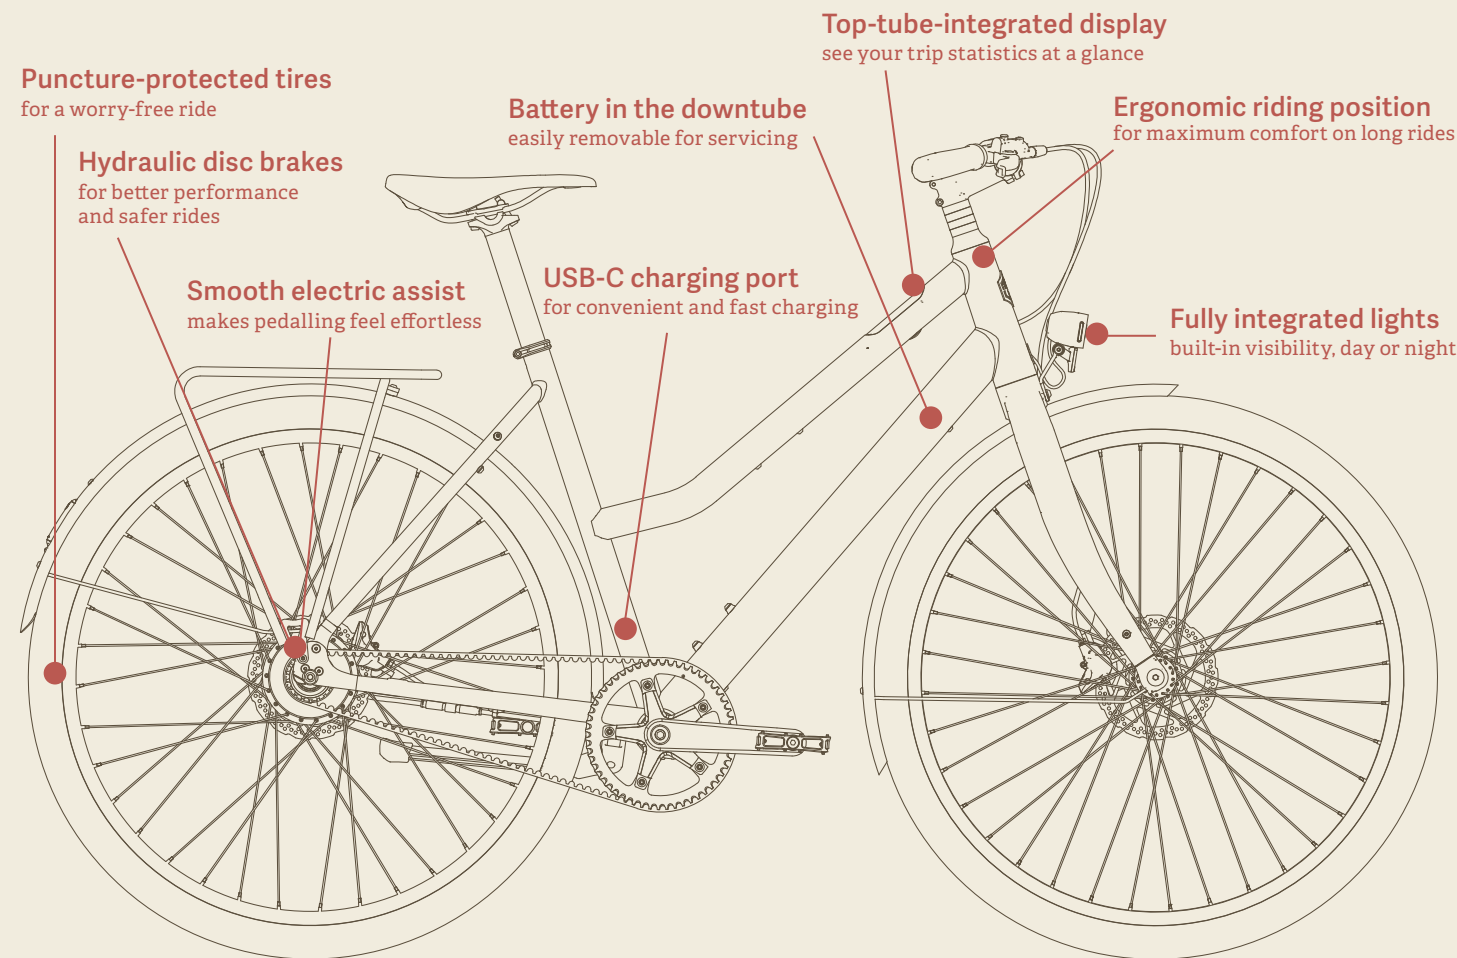

*Redefining what modern riding feels like.*

Forget bulky batteries and clunky components. Ampler lightweight e-bikes combine modern technology with timeless bicycle design to make your ride lighter, faster, and refreshingly simple.

Now, we're leading the next generation of e-bikes with USB-C charging that makes riding smarter, cleaner, and more convenient than ever.

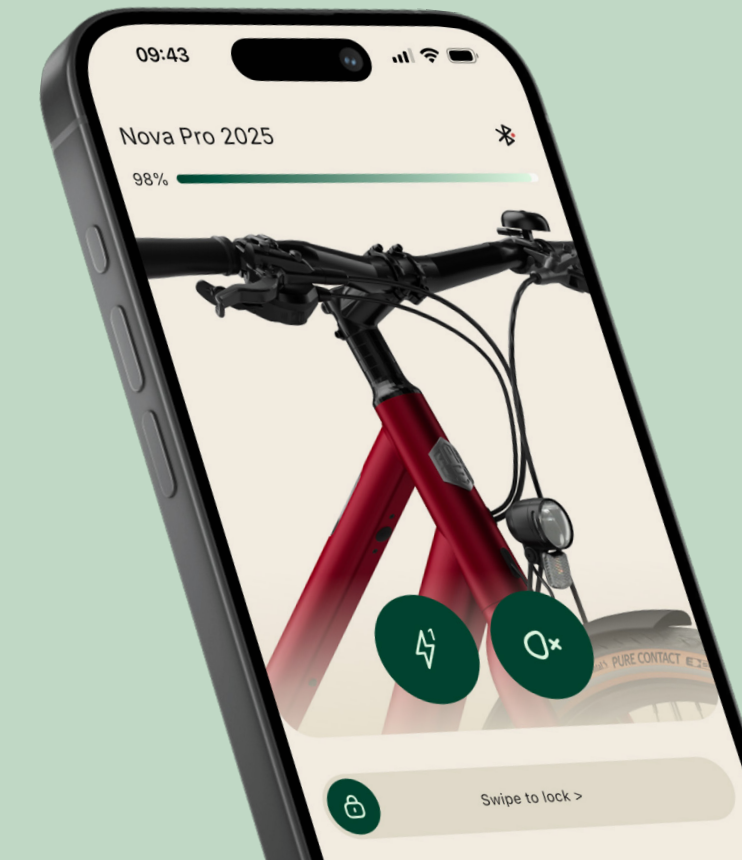

## With love and care from **Estonia**

Every Ampler is designed and hand-assembled in Tallinn, Estonia, with care, precision, and pride, since 2014. As a direct-to-customer brand, we own the entire journey: from designing and producing the bikes to offering world-class after-sales service to our customers.

## Stay in Control with the Ampler mobile app

- **Smart bike locking**  
Lock your bike from the app and disable the power button for extra peace of mind.
- **GPS theft protection**  
Know where your bike is anytime, and get alerted if it moves unexpectedly.
- **Real-time insights & control**  
Fine tune your motor assist levels and monitor key ride stats in one place.

## Electric boost. Natural feel.

*The world's first USB-C chargeable e-bikes, designed for ultimate riding comfort.*
