PRODUCT STATEMENT

CANYON CITYLITE:ON

CANYON

City simplified. Ride smooth. Worry less.

The Citylite:ON is your new go-to for effortless city riding—designed to bring comfort, ease, and style to your everyday journey. Whether you're commuting, shopping, or just getting around. The Citylite:ON is all about smooth rides and simple solutions for modern urban life.

More than a new bike—it's a new chapter the category. Citylite:ON now represents a grand part in Canyon's dedicated Urban line-up, sitting proudly alongside the sportive minimalist design Roadlite and Roadlite:ON. Citylite brings a fresh focus: fewer choices, better options.

It is literally city simplified—Easy to ride. Easy to choose. Easy to love. Welcome to the Citylite:ON.

PRODUCT FOCUS

CANYON CITYLITE:ON STEP-THROUGH

CANYON

EASE-OF-USE

Equipped with all you need for the city: built-in lights with brake signal, fenders, kickstand, rack, and a frame-integrated lock for quick security. With a MIK HD rack, you can one-click mount everything you need for any city scenario, from a child seat to a basket or side bag. Add a front rack or a trailer for even more options.

COMFORT

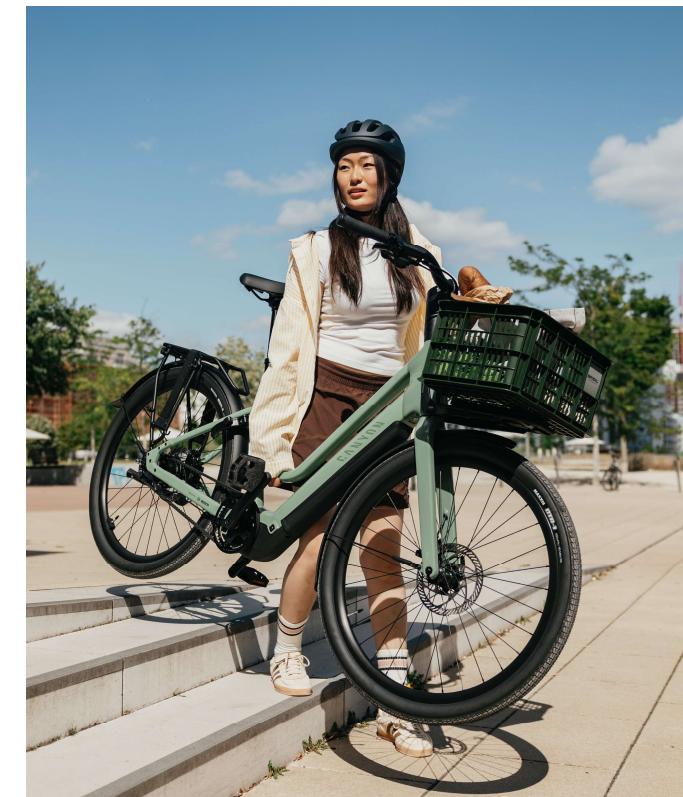

Experience a smooth ride with the powerful and quiet Bosch Performance Line motor. Enjoy comfort with an upright position with a wide comfy saddle and ergonomic handlebar with wide-winged grips. Use the vario suspension seat post for tool-less adjustability and bike sharing.

LIGHTWEIGHT

The Citylite:ON offers with 21,46kg the lightest weight in its class. It gives you a nimble ride quality—making it easy and fun to maneuver on when you're cruising crowded city streets. Traveling with your bike or transporting it up stairs and city steps often requires that you lift your e-bike. The handle on the step-through downtube makes this even more convenient.

RELIABILITY

An internal geared hub and a durable Gates belt take the stress away of regular maintenance that comes with daily riding. With reliable hydraulic disc brakes, you have all the stopping power you need, at any time.

CITY SIMPLIFIED

CANYON CITYLITE:ON STEP-THROUGH
