ABOUT THE FOUNDERS

ABOUT US

Wholegrain Cycles, a ‘down to earth’ bike equipment startup, was formed by a pair of like-minded bike lovers determined to give riders more options for carry, on their most trusty of tools, their bicycle!

Our mission is to create durable, functional, and human-focused carry solutions for riders from the city to the mountains, in an industry plagued by daunting tools and over-engineered gear, that requires specialist knowledge to mount and maintain. To this end, Wholegrain Cycles creates versatile, thoughtfully produced, easy-to-use accessories that anyone can install and enjoy.

Human solutions for humans who like to ride bikes.

LOCATIONS

SHANGHAI: LUKE and a team of 3 employees with expertise in product & graphic design, prototyping, marketing strategy and activation.

LONDON: MILES in a satellite office with specific bike industry expertise and expertise in product design, product development and sourcing.

RELEVANT COMPETENCIES

- Product design, development & project management: Bringing commercial products to market in the bike industry.
- Design for manufacture, design for disassembly and design to lower environmental impact.
- ‘On the ground’ (China) sourcing, production, planning and QC.
- Professional photography and film; capture and edit.
- Graphic design for product and marketing.
- Forecasting bike industry trends through network and other work.

OTHER ASSETS WE CAN PROVIDE

- Brand film (coming before end of 2025)
- Location and studio product photography, as well as ongoing photographic assets produced by ourselves and our community
- Organically grown Instagram following ([@jackthebikerack](#)) - not due to advertising
- POS graphic, physical design and engineering.
- Presence and participation at market activation or sponsorship events in UK, EU, Japan and S.Korea.

FOUNDERS - Miles Gibbons & Luke Cardew
